- Leave post space  Place post

- Please send more referral forms

COMFORTABLE, EXCEPTIONAL CARE

TREASURE VALLEY  
**ENDODONTICS**

## Why was I referred to an endodontist?

### QUALITY

Your dentist values your well-being and has referred you to our office out of personal concern that you receive the highest quality endodontic care and an outstanding treatment experience. We serve as a partner on your dentist's team of trusted caregivers to provide expert advice and treatment of routine and complex procedures involving the roots of your teeth.

### COMFORT

While you may have some apprehension, don't believe the common myth that root canal treatment is painful. Root canal treatment actually relieves pain and infection by removing diseased tissues from inside your tooth. Thanks to advancements in anesthetics and treatment techniques, the overwhelming majority of patients referred to endodontists are comfortable during treatment.

**"The dread of having a root canal ended up to be unnecessary. It was absolutely painless."  
– Pat D."**

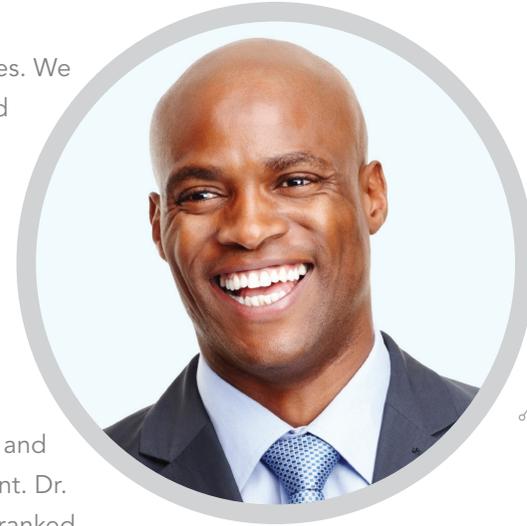

## Why Treasure Valley Endodontics?

### EXCEPTIONAL CARE

Your health and comfort are our highest priorities. We take great care to provide you with personalized attention as we form a diagnosis and present your treatment options. Our friendly and compassionate team provides comfortable treatment using the most advanced equipment and techniques to achieve exceptional results.

### EXPERTISE

Knowing you can trust the training, experience, and competency of health care providers is important. Dr. Stanton Widmer graduated from dental school ranked 2nd of 73 students. He then worked as a general dentist and taught dental students before pursuing advanced education as an endodontic specialist. From 2008-2011, Dr. Widmer completed a rigorous, voluntary process to become board certified in endodontics. As of 2011, this was a distinction earned by fewer than 20% of endodontists nationally and by no other private-practicing endodontist in the state of Idaho.

**"My patients have been very satisfied with Dr. Widmer's treatment and success rates are impressive."  
– David G. Smith, D.D.S."**

### SERVICES

We provide microscope-enhanced services including root canal treatment, retreatment, endodontic microsurgery, surgical placement of dental implants, and treatment of traumatic injuries involving teeth and roots. Please refer to [www.tv-endo.com](http://www.tv-endo.com) for more information about these procedures.

### VALUE

Treatment fees vary depending on the complexity of the problem and which tooth is affected. In most cases, root canal treatment and proper restoration of your natural tooth is less expensive than alternatives that remove the diseased tooth and replace it with an artificial tooth. Preserving your natural tooth usually takes less time, results in fewer complications, and looks more natural compared to alternative treatment options. Nothing looks, feels, or functions quite like your natural tooth. The great majority of patients and dentists feel that treatment provided by an endodontist is worth the cost. You are worth the investment!

**"Dr. Widmer provides the very highest in clinical care. More importantly, his compassion and dedicated professionalism are evident by the countless number of positive comments I receive from patients."  
– Sean A. Benson, D.D.S."**

TREASURE VALLEY  
ENDODONTICS

#### IMPORTANT:

- All patients under age 18 must be accompanied by a parent or legal guardian.
- If you require antibiotic premedication prior to dental treatment due to artificial joints, heart defects, or another medical condition, please ensure you have the necessary prescription and take as prescribed **before** your appointment.

#### PREPARING FOR YOUR VISIT:

- Please bring the referral form provided by your dentist (back cover of this brochure).

- Please bring a form of picture identification, your dental insurance card (if applicable), and a method of payment (cash, check, credit card, CareCredit®).
- Registration forms can be completed at our office (~15 minutes to complete) or you may download them from [www.tv-endo.com](http://www.tv-endo.com) and bring the completed forms to your appointment.
- For your health and safety, please provide an accurate and complete medical history including a list of the name, dose, and reason for taking any medication (prescription, over-the-counter, herbal, or nutritional supplement).
