Wednesday, July 11: 6pm – 7:30pm

Location: Saint Alphonsus Medical Center, 4300 E Flamingo Ave., Nampa

RSVP AT (208) 454-3636 OR OFFICE@TV-ENDO.COM

Pre-GentleWave[®] Procedure

Post-GentleWave[®] Procedure

Benefits of GentleWave[®] Include:

BETTER CLEANING

Traditional techniques contact 65% or less of the root canal surface^{1,2}, leaving residual tissue and bacteria in >80% of cases³. GentleWave debrides 98% of the root canal space, including areas inaccessible by other methods^{4,5}.

LESS INVASIVE

A single-use, sterile procedure instrument simultaneously delivers and suctions away hundreds of milliliters of multisonically-energized treatment fluids throughout the entire root canal system. Only minimal shaping is required, leaving roots thicker and stronger.

FEWER VISITS

Treatment can usually be completed in a single visit, and better disinfection decreases the risk for reinfection⁶.
